Karachi Pakistan

PROFILE SUMMARY

Full Stack Developer with a strong frontend focus, skilled in React.js, Next.js, and Angular. Experienced in integrating REST APIs and state management (Redux Toolkit, Context API), with working knowledge of Node.js, Express, and MongoDB. MySQL, Familiar with Agile tools like JIRA and version control (Git, GitHub, Bitbucket). Passionate about building clean, high-performance, and user-friendly applications.

EDUCATION

- BS Computer Science
- Intermediate (Computer Science) – A-1 Grade
- Diploma in Computer Information Technology

SKILLS

Frontend Development

- HTML5, CSS3, SASS, Tailwind CSS, Bootstrap
- JavaScript (ES6+), TypeScript
- React.js, React Native, Next.js (SSR), Angular
- Redux Toolkit, React Context API, Angular Services
- Integrate REST APIs (Axios, Fetch)

Backend Development

- Node.js, Express.js
- MongoDB (CRUD operations, Mongoose)
- MySQL Workbench, PostgreSQL
- Backend Authentication (Login/Signup, JWT, Protected Routes)
- REST API Development (CRUD, Auth APIs)
- Real-time Communication (Socket.io – Chat App)
- File Uploads (Multer, Cloudinary)

Other / Tools

- Git, GitHub, GitHub Desktop, Bitbucket, JIRA, Linear, Postman, Vercel, Gainsight

WORK EXPERIENCE

Aceontechnology

FEB 2024 - PRESENT

Full Stack Developer (Frontend Focused)

- Built responsive and dynamic UIs using React.js and Angular.
- Implemented state management using Redux Toolkit, React Context API, and Angular Services.
- Improved UI performance using React.memo, useMemo, lazy loading, and Angular optimizations.
- Integrated Firebase Authentication and API-based authentication (JWT tokens).
- Managed project collaboration and version control using Git and GitHub.
- Built SEO-friendly websites in Next.js using SSR, meta tags, and clean URLs for better search visibility.
- Developed a real-time chat application using Socket.io, React, and Node.js, enabling instant messaging with dynamic user updates.
- Integrated image uploads with Multer and Cloudinary, storing URLs in MongoDB.
- Developed secure auth system (signup/login) using Node.js, Express, MongoDB, and JWT.
- Created a full-featured E-commerce site in Angular with JWT auth, product APIs, and private routing.
- Built a React School Management System with admin dashboard, fee management, admission forms, and login/signup.
- Designed and consumed custom RESTful APIs for dynamic data handling and CRUD operations in full-stack apps.
- Worked with MySQL & PostgreSQL for schema design, queries, and secure CRUD operations.
